 100 110
SAMPLE OUTPUT 1
 YES
SAMPLE INPUT 2
 SAMPLE OUTPUT 2
NO
```

Before the outbreak of corona virus to the world: a meeting happened in a room in Wuhan. A person who attended that meeting and COVID-19 and no one in the room knew about it is overyone started shaking hands with everyone else in the room as a gesture of respect and after meeting unfortunately everyone got infected. Given the fact that any two persons shake hand exactly once, Can you tell the total count of handshakes happened in that meeting? Say no to shakehands. Regularly wash your hands. Stay Safe.

Read an integer N, the total number of people attended that meeting.

Output Format

Print the number of handshakes.

1
Explanation Case 1: The lonely board member shakes no hands, hence 0, Case 2: There are 2 board members. 1 handshake takes place.

In our school days, all of us have enjoyed the Games period. Raghar loves to play cricket and is Captain of his team. He always wanted to win all cricket matches, But only one last Games period is left in school now. After that he will pass out from school. So, this match is very important to him. He does not want to lose it. So he ha does not a lot of planning to make sure his teams wint. He is uncried about only one opporant—1abin, who is very good batternan. Raghar has figured out 3 types of Bowling techniques, that could be most beneficial for dismissing Jatin. He has given points to each of the 3 techniques. You need to tell him which is the maximum port very long to the country of the country of

maximum point value, so that Raghav can select be input.
Three space separated integers.
Output.
